THOUSANDS of devout Catholics living in Alberta are concerned about the eventual fate of five Sisters of the Immaculate Conception order. With 6,000 enraged spectators shouting judgment, a Red Chinese People's Court in the capital of Kwantung Province recently sentenced two nuns to five years' imprisonment and expulsion from the country at the end of their terms. Two others

were expelled for life and the fifth to simple expulsion. The five Sisters were convicted of the murder of children in orphanages they operated in Canton, but in defense of their work it was stated that children who were diseased and dying of starvation were placed in their hands. Not all these children survived, hence the trumped-up charges of infanticide.

Lions Club Host To Operetta Cast

BEISEKER—The Beiseker Lions Club was very pleased to have as their luncheon guests, the cast and technicians of the Acme Operetta Group.

The lunch was served after the operetta group presented the operetta "The Green Cheese" in the Beiseker Memorial hall on Wednesday, Jan. 9.

The Lions Club wishes to thank the Enterprise Association, who sponsored the operetta, for this opportunity of being able to serve this delicacy.

EDITORIALS

Always A Monkey Wrench

There is no reason to suppose the Russian Government will be any more co-operative in 1952 than they have been before. Like a quarrelsome neighbor, the Russians seem to only want discord, fear and dis-harmony in international relations.

Whatever the Western democracies want to do, whatever they suggest, for co-operation and world peace, is found fault with by the Russian delegates to the United Nations.

Perhaps the growing military strength of the Western Powers will result in the Russians being more willing to help solve World problems, and less ready to "throw a monkey wrench into the works" at every U.N. meeting.

Bowling Is Healthful Fun

Persons under 18 years of age are not permitted in any billiard room or bowling alley unless they enter as members of a league or when accompanied by parents. For the typical hand-out type of billiard room this is quite a fair restriction to make on juveniles and the kind of fun and recreation they should have.

There should, however, be some discretion in this regulation which keeps young people from enjoying the fun of a good, clean game of five-pin bowling. There are reputable bowling alleys that deserve a higher rating than those from which juveniles should be banned. Why doesn't the government give these better-class recreation centres an "A" rating, so that parents can send their boys and girls out to enjoy a healthful indoor game, with complete trust and faith that they have in sending them to the community skating rink.

Surely government regulations don't have to be stilted and stuffy that they can't differentiate between a youth "joint" and a potential youth centre.

Good News For Settlers

The benefit of the Prairie Farm Assistance act is to be extended to the northern areas of the prairie provinces and British Columbia. This act was originally intended to ameliorate drought conditions in the southern prairies. The amendment passed last week makes it available to settlers on new crown lands open for settlement after 1940.

The act provides that if wheat yields are under 4 bushels an acre, a payment of \$2.50 per acre will be made on half the cultivated acreage. If the yield is between 4 and 8 bushels an acre, the payment is \$1.50 an acre on one-half the cultivated acreage. In the case of other grains the wheat payment scale is used as an index. On no instance is the payment more than \$500 per farm.

Won't Be Eating It Long

There has been quite a fuss raised about horse meat. Some people have declared that under no circumstances will they eat it. Others are already doing so.

Experienced livestockmen say there is nothing to worry about, that the question will largely disappear because the heavy horse is disappearing, reports The Financial Post.

It was a phase of farm mechanization that brought the horse into the Canadian meat picture. Ousted by the truck and tractor he was turned out to pasture where he grew fat and tender and in these days of high-priced meat, anything fat and tender is liable to wind up in the butcher shop. But when the present surplus is gone there will be no more for the breeding of draft or heavy horses in Canada is almost at an end.

Note and Comment

The remarkable increase made in some parts of Alberta according to the recent population census, will not mean an increase in Alberta's representation in the Federal House. Alberta's over-all increase keeps pace with the over-all increase in the whole country and a little better. Saskatchewan has lost population, and in the next election election will send one or two fewer members to Ottawa.

Who Wants To Be Educated?

During the depression it used to be said that education was a great thing. That any bum with a B.A. degree to his name and a nickel in his pocket could walk into any restaurant and order a cup of coffee. Any body could buy a cup of coffee for five cents in those days. The price of the coffee has now changed, but has the value of a university education improved?

A short time ago the listening public was treated to a demonstration of the supreme achievement of a university education in an enlightening quiz program broadcast over CKUA, the University Radio in Edmonton. We strongly suspect the gentleman who arranged the questions for this brilliant display of learning was either a man of evil intent, or a genuine humorist. A panel of learned professors confronted one of unlearned students with questions about English history.

At least one student had the honesty—almost equal to George Washington's concerning the famous cherry tree—when he replied to a question: "Well I can only guess!"

Here are some of the remarkable replies to questions propounded, most of them from the panel of professors:

Que.—Who was the father of Edward the Sixth?
Ans.—Prince Albert. Second guess Edward the Seventh.

Que.—Who was the father of William the Fourth?
Ans.—Henry the Eighth.

Que.—Who was the father of James the First?
Ans.—Charles the First.

Of course it may be the quiz program was only a burlesque, or an educational "take off" on modern education, but we rather suspect it was just a demonstration of the crass ignorance that passes today for education. The panel of students might be excused on the grounds that our high school and public school education are at fault, but a demonstration of that regrettable fact should make the public wonder why so much is being spent on education.

The professors gave an astounding revelation of a void that is not excusable. They also demonstrated the truth of the charge that university education today is not concerned with making scholars but with turning out doctors, dentists, lawyers and haberdashers. Certainly it looks as if there is no intention of turning out cultured men and women. Culture has little to do with an educational system that can produce no better from professors or students. After all, Winston Churchill wasn't a university man, so a university education is not essential to success. But at least a man who hasn't attended university may know he needs more education, and become self-educated in his daily life. Some such men reach great heights of learning and success. Pity the poor college graduate with a degree and no education!

Our Debt to the Church

Sometimes we are prone to ask the question: Why go to Church? Sunday is a day free from labor and business responsibilities. Why not use it for rest, relaxation, sports and recreation?

There are preachers in the pulpit who don't help us much, admittedly, because instead of preaching spiritual truths they daily with comparatively trivial problems. Matters that affect our lives, it is true, but result in humdrum sermons of light consequence. Men and women living in Canada today aren't much in need of material wealth, and talking about it from the pulpit won't get it for them, if they do need it.

At the same time, we know that wherever the Christian church has gone, faithful workers have brought in missions, hospitals and schools. They have ministered to the physical needs of the people, and then preached the gospel of salvation for their conversion and satisfying of their spiritual needs. For these material blessings we owe a debt to the Church. We can repay our debt and receive still greater gain for ourselves by attending church and looking to the pastor for messages of spiritual worth for the benefit of our souls.

Hog Prices on Downward Drift

Hog prices have been on the skids. If it is any comfort to producers to know the reason, here it seems to be: The United States has raised a huge pig crop and prices there have dropped. This enabled 30,000,000 pounds of U.S. pork to cross the line into Canada. While Canadians have been swinging to pig meat instead of higher priced beef, the demand has not kept the price up. During October domestic consumption ran at the rate of 118,000 pigs a week. Three years ago 78,000 porkers a week was all the domestic market would absorb.

Prices have gone down from a high of \$40 a cwt. dressed weight in August to around \$27 at present.

In Minnesota last week live hogs were selling for \$18 per cwt., which is equal to \$24 for dressed pork.

I want to pay tribute to members of the Alberta Commercial Travellers who put on the A.C.T. Search for Talent shows to raise money for crippled children. They work cheerfully and untiringly to make each show run smoothly, even after they have travelled many miles over rough roads to get to the town where it is being held, even in bad weather. Any contestant, winner or loser, has the satisfaction of knowing that by simply participating in the Search for Talent they have made it possible for some crippled child to get a better chance in life—besides enjoying some good clean fun on their own.

ANY FORMER FATTIES?

Dear Sir—If you have any fat boys in your area who have taken Elmer's Calorie Cure and have trimmed their tummy, please let me know.

I'd like, through your paper, to give them our "No Belly Award," a humorous diploma that congratulates them on their courage and stamina in shedding their suit down to "one last chin."

Might make you an interesting local story as a build up to our new serial, "The Fallen Fat Boy" which George Little of General Features should be offering you after the first of the year.

In all events, the "honoree" might like The Fat Boy's Diploma! It ranks with the Pulitzer Prize for "accomplishment beyond the call of the dinner bell!"

WELCHING ON DEBTS

(From the Calgary Albertan)

The Canadian government is piling up record surpluses, derived, of course, from taxation of the people. Some politicians are crying to high heaven about this "robbery," this "deliberate fleecing of the people of their hard-earned money."

Actually, of course, the Canadian government is very heavily in debt, mostly as the result of two wars. Either the government and the taxpayers never intend to pay that debt, in which case we

might say they are dishonest, or they will pay it. If they intend to pay it, the time to start is now. Canadian national income is higher than ever before. The people are in a good position now to pay off old debts, much better than they might be five or ten years from now. Any surpluses in the public treasury go to reduce the public debt.

To criticize the surpluses, in our opinion, is to favor Welching on the public debt.

ALBERTA DELEGATES ATTEND SASKATOON FARMERS' MEETING

By HENRY YOUNG

President Alberta Farmers' Union

A meeting of the Inter-Provincial Council of the Prairie Farm Unions was held at Saskatoon on Jan. 4. There was a full representation from the three provinces. Attending from Alberta were: Mrs. W. C. Taylor of Wainwright, president of the FWUA; Henry Young, FUA president, and James Jackson of Irma, vice-president of the FUA. Mr. Jackson was substituting for Andy Wood who was unable to attend on account of a death in his family.

The meeting was held in conjunction with the Saskatchewan Farmers' Union school for organizers, and our members were able to attend several classes of this training course which proved very interesting and instructive.

The business of the Council meeting included, first, a review of the previous year's work, including the delegations to Ottawa and the Inter-Provincial confer-

ence. It was decided that further efforts should be made to get action on various matters affecting farmers. To this end further negotiation with the Federal Government, with a delegation to follow, if necessary, was agreed upon.

Program for 1952 was considered at some length. It was decided that a parity price for domestic wheat in Canada should be the No. 1 objective. Other points placed on the forward policy for 1952 were: "Arbitration Board to review settlement under the 5-Year Pool", "Price Equalization and Control", "Settlement to Farmers for the Excessive Grain Overages of 1945-50", "Adoption of voluntary Requisition System for Payment of Farm Union Dues", "Direct Producer Representation on the Wheat Board", and "Amendment of Agricultural Prices Support Act to include Cereal Grains".

The question of holding another Inter-Provincial Farm Union Conference in 1952 was discussed. It was felt that this should be done and tentative plans were made for the holding of a conference at Saskatoon during the latter part of July. Guest speakers to be invited will include Mr. Patton, the National President of the Farmers' Union of the U.S.A., and the Prime Minister of Canada, Hon. Mr. St. Laurent.

The proposed extension of the International Wheat Agreement was taken up and discussed at length. The Council agreed that in any future agreement, provision should be made for much greater flexibility of price range, particularly under inflationary conditions. An annual review of price was suggested. It was decided to make representations in regard to this matter to the proper authorities when the negotiations for an extension of the agreement come up this summer.

Officers of the Inter-Provincial Council were elected as follows: Chairman, J. L. Phelps, Saskatchewan Farmers' Union; vice-chairman, Henry Young, Farmers' Union of Alberta, and Jake Schulz, Manitoba Farmers' Union; secretary, Mr. Blaine, Saskatchewan Farmers' Union Office.

Reports from the three provinces showed the Unions making good progress with Manitoba leading the way with the greatest gain. All signs point to a very active year in 1952.

Crippled Children Move Into New Red Cross Home

A tasty meal has been planned for patients' first meal in the new Alberta Red Cross Crippled Children's hospital in Calgary. After a fairly early morning move to the new hospital some time this week, the kiddies will be settled in their respective beds by noon and to greet them the dietitian, Mrs. Sheila Dixon, has already planned their luncheon.

It will consist of minced meat patties with gravy, mashed potatoes, peas and carrots, apple crisp pudding and milk. The staff eat the same as the children up to a certain extent although they will be given deep fat fried foods at times as well as various pies.

Mrs. Dixon, in readying the huge kitchen for use, is a busy person. Much of this year's pack in canned goods was bought last fall before the gradual rise in prices, but there are still many tag ends to be purchased.

In addition, there will be foods to move from the old hospital though at present everything possible is being used to save moving... just the same as the housewife plans her moving from one house to another.

Meat for the hospital is bought by the animal with a part-time butcher hired to do the cutting.

The staff from the old hospital will move to the new, supplemented by some additions. Some will come ahead to wash the walls and stainless steel facilities, scrub the floors and familiarize themselves with the entire department. All equipment has been tried and now the dietitian must instruct her staff in the use of the various new pieces.

One of the most interesting sections is the food storage division where, in one huge room, cases of canned goods are stacked and counted. A card system enables the dietitian to keep strict count of every tin.

There is also an enormous root cellar, filled with vegetables donated by various branches and individuals while five cold storage lockers are ready to receive both the meats purchased by the hospital and donated meats.

Central Steam Heating Planned For Sangudo

What is considered as an unusual arrangement for heating in a small town in Alberta is to be tried in Sangudo in 1952. Philip Keely, well-known businessman of Sangudo, has installed a large steam heating plant in his new Sangudo Motors building. He plans on laying steam pipes from it to connect with the billiard room, owned by barber Sam Lenko, Harold Perrin's community store and the Sangudo Hotel, of which John Andriuk is part owner and manager.

The furnace is hand-stoked with lumen coal. There is no natural gas in Sangudo.

LETTERS TO LOUISA

Dear Louisa:

My husband and I belong to different churches. He doesn't want to go to mine and I don't want to go to his.

The reason I don't want to go to his is because of the way his mother does and the way the church believes. His mother says I'm going to hell if I don't belong to his church and that's what the whole church believes.

My husband and I have been married for four years and have two wonderful children. We are happy until we get around his mother and she starts nagging us about going to their church.

We don't go to church anywhere because my husband says he's going to carry our oldest child to his church and I can carry the baby with me but I don't think we should part them, do you?

My husband would go to church

with me if it wasn't for his mother, I believe.

What would you do in my case?
MOTHER AND WIFE.

Answer:

It is a pity that you and your husband did not decide this question before you were married.

I believe that anyone who lives a good life, helps other people and supports his church in all of its work, can go to heaven regardless of the church with which he happens to be affiliated.

I realize, of course, that there are churches that do not take this view of religion and I can understand why anyone who is tolerant of other religions would feel hypocritical in joining such a church.

As you are both so set in your opinions, it seems to me that a compromise would be the best plan. Either do as your husband wishes by dividing the children or you carry them to your church for a year and let him carry them to his for a like period. When they get old enough to decide, let them choose the church they prefer.

Certainly, children should not be robbed of Sunday School and church experience.

LOUISA.

Dear Louisa:

I am a young girl of teen-age. What must you do when you can get along with your people except with your mother. I think she thinks more of the other children than me. When we get to fussing she takes up for them but calls on me to do things—says I cause all the trouble.

She doesn't want me to go anywhere or have any privileges—thinks I should stay home all the time and work. When company comes, she acts like she is ashamed of me. What must I do?

TEEN-AGER.

Answer:

Your mother must be a most inhuman creature if she is the way you describe her but I wonder if you are not painting the picture a little blacker than it really is.

The teen-age period can be a very trying one for mothers and children. If they will try and have patience with each other and make excuses for each other, the years will pass and they will finally understand that the fault lies with both.

Tell your mother that you are going to try to get along with the others and ask her to have patience with you and help you to be happy. If she thinks you are in earnest perhaps she will be kinder and more understanding.

LOUISA.

Barley Contest Judging To Be Held Feb. 15-16

The unfavorable 1951 harvest season, inability of contestants to get cars to ship their carload entries and other causes, have delayed judging entries in the 1951 National Barley Contest.

The judging has now been set for Feb. 15 and 16. The awards will be determined on these dates at inspection rooms of the Board of Grain Commissioners in Winnipeg. As in former years the winning entries will be picked by an interprovincial judging board, personnel of which will be much the same as last year.

Alberta judges will be: Dr. A. G. McCalla, Edmonton, Dean, Faculty of Agriculture, University of Alberta; A. M. Wilson, Alberta Field Crops Commissioner; C. A. Weir, Calgary, District Supervisor, Dominion Plant Products Division.

THE LIGHTER SIDE

Won Anyway

The fancy dress dance was over and local gossips were comparing notes.

"Mrs. Smithington-Smythe looks upset, don't you think?" said one, gloatingly.

"Yes, my dear. She came as a Hawaiian beauty, with grass skirts and all—and they awarded her first prize in the humorous section as The Old Thatched Cottage."

Seclusion

"If you try to kiss me, I shall scream!"

"Not with all these people about surely?"

"Let's find a quieter spot, then!"

Deficient Nature

Among the wonders of Mexico are hot and cold springs situated close together. There one may watch native women boiling clothes in a hot spring rubbing them in a spring of cold, clear water.

Observing this interesting spectacle one day, a tourist remarked to his guide, "I suppose those women think old Mother Nature is pretty generous, eh?"

The guide smiled crookedly.

"No, señor," he replied, "they grumble because she supplies no soap!"

Spare Those Blushes

Old Maid—"Has the canary had its bath yet?"

Servant—"Yes, ma'am. You can come in now."

Go Easy

"Mrs. Smith's pet dog has been run over; she'll be heartbroken."

"Don't tell her abruptly."

"No, I'll begin by saying it's her hu band."

He Asked For It

A pompous individual stalked into the office and demanded to see the manager.

"I'm sorry, but he's not here," replied the receptionist. "Is there anything I can do?"

"No!" snapped the visitor. "I never deal with underlings. I'll wait until he returns."

"Very well, take a seat," said the girl, and went on with her work. Half an hour later, the man became impatient. "How much longer do you think he will be gone?" he demanded gruffly.

"About three weeks," answered the girl calmly. "He left for South America yesterday."

The Toast

"My father always proposed a toast before he disciplined me."

"That's funny! What was it?"

"Bottoms up!"

"Did you see the stork that brought me, daddy?"

"Only the bill, son."

When in the city shop around the corner and save.

Sangudo Accountant
Had Exciting Career

Kryzaniak, translated from Polish to English means "Christian's Son" but if you ask Marian Kryzaniak why he doesn't change his name to the English form "Christianson" he can give you plenty of reasons why he should retain the family name, spelling, pronunciation and all.

Marian was born in Poland, but has lived in several different countries before coming to Canada. Most of his life has been uprooted by war and regimented by Prisoner of War Camp barbed wire fence. He was in the Polish army in the fall of 1939 when it capitulated to the Russians and Germans. He tried to escape to Hungary but was captured at the border and until 1944 spent his time in a prisoner of war camp in Bavaria.

When General Patton's American army liberated him, Marian served with the Americans for three months. Later he spent a few months as a student at an Austrian university. He re-joined the free-Polish army in Italy and was editor of the weekly Polish army magazine, "White Eagle." Later he was made Public Relations Officer of the Polish Division and was sent to England.

After a time spent in England, Marian got the opportunity to come to Canada. He has been working as accountant and office manager for Sangudo Motors and likes his work and likes Canada.

TB Seal Dollars Still Needed

Christmas Seal collections for Calgary and district are nearing the \$45,000 objective it is reported by C. T. Webb, chairman of the Calgary Kinsmen Club Christmas Seal committee, and Friday amounted to \$39,750.

Only \$5,250 short of the objective, the campaign could go over the top in another few days if everyone who intends to contribute would do so without delay, Mr. Webb said.

Alberta's provincial Seal sale fund is now only \$17,500 from the objective of \$185,000, which is the absolute minimum required to carry out the extensive anti-TB program of the Alberta Tuberculosis Association and its local district associations, according to G. S. Lakie, president of the Alberta Tuberculosis Association.

Mr. Lakie stressed that the association has no other source of revenue than the annual Christmas Seal sale, receives no grants from governments, does not participate in Community Chest drives, and appeals to the people

only once a year through the Christmas Seal sale. The TB Association does not canvass for funds nor sell Seals in any other way than through the mail.

Declaring tuberculosis still to be Public Health Enemy No. 1, in spite of spectacular progress, Mr. Lakie said, "We in Alberta are in the vanguard of the fight against TB, and if the people support us generously we can stay there. If only 9,000 more people send us \$2.00 each we will have our \$185,000 and our program will not have to be curtailed."

Christmas Seal contributions are income tax deductible and receipts will be sent on request. Contributions may be sent or delivered to Calgary Kinsmen Club Christmas Seal Committee, Room 9, 116-5th Avenue East, Calgary, Alberta.
